OKLAHOMA STATE BY LAW CHANGES

Several By Law changes were presented by the deadline in March 2021, by then 1st VP Sandy Lackey. It ended up being 8 pages but all were related to specific changes regarding the two main changes. The first was in regard to Dropping the 2nd Vice President and all related areas that it would affect. The second one was in regard to Dropping the Senior Past President and all the related areas that it would affect. There were also some minor items to let a person succeed themselves. All these changes were brought about in an effort to get more people to run for positions without a long commitment.
